## Description

Job Title: Data Collector

Organisation: Uganda Healthcare Federation Ltd

Activities location: Kampala and Wakiso

Closing date: 26th August 2020

### **About Uganda Healthcare Federation (UHF):**

Uganda Healthcare Federation is an umbrella organization affiliated to the East Africa Healthcare Federation and as such represents the interests of non-state health players in Uganda. UHF was formed in 2010 borne from the need to have an umbrella body, which unites and represents all players in the private health sector in Uganda. UHF has been successful in attracting a broad membership of 56 associations and corporate organizations within its first year and hosted the 2012 EAHF inauguration Conference in Kampala.

UHF is a nonprofit professional association representing the private health sector in Uganda. The Federation's purpose includes advocating and supporting its members in policy and other decision making forums, representing its members at both the national and country levels, providing networking and training opportunities to improve quality of health services delivered, strengthen business skills and enhance market opportunities in healthcare, and provide an annual conference for the education of its members and exchange of information on issues essential to the quality and business of healthcare in Uganda.

### **Program / Department Summary**

Uganda Healthcare Federation with support from Private Sector Foundation Uganda under Young Africa Works Project with MasterCard Foundation aims to implement immediate relief, recovery and resilience interventions under the COVID-19 PSFU Response Project in strengthening, organizing and mobilizing the private sector to provide Ugandans with the option of obtaining high-quality health services from private health providers (PHP).

UHF is supporting the SCAPP department at MOH, alongside the regulatory councils and key private sector stakeholders to digitize a single tool (SQIS+) developed from the harmonized existing toolkits and quality initiatives to support quality improvement in private facilities from the small nursing homes to the hospital size facilities in both rural and urban settings.

## **General Position Summary**

The data collectors will be required to collect the SQIS+ health facility pre-liminary information for direct upload from private health facilities in the five divisions of Kampala and Wakiso district. The data will be collected using a tool which will be completed by the data collector and submitted to UHF at the end of each day.

## **General Skills**

- Strong interpersonal and communication skills are mandatory
- Ability to work with minimum supervision, and to meet deadlines.
- Ability to communicate well in English both verbal and written is mandatory.
- Experience in data collection is desirable.

## **Education Requirements**

- A minimum of A' Level certificate with background in data collection.

Interested qualified candidates should send a one page cover letter, with a curriculum vitae (CV) no longer than two pages, by email to [admin@uhfug.com](mailto:admin@uhfug.com) by 26<sup>th</sup> June 2020.

Your application should include three contactable referees with at least one previous supervisor during similar exercise. Please ensure that any contact numbers in your CV are reachable during working hours. Only successful candidates will be contacted.
